

All hot water storage tanks are ASME labeled and are registered with the National Board of Boiler and Pressure Vessels.

All hot water storage tank sizes are available in 100, 125, and 150 PSI design pressures. For other working pressures, please consult Midwest Tank Co.

Hot Water Storage Tank Model Numbers

MODEL NO.	CAPACITY IN GALLONS	DIA.	OVERALL LENGTH	RECOMMENDED OPENING SIZE
HW3060	210	30"	77"	In/Out 2"
HW3072	250	30"	89"	Recirc. 1.5"
HW3084	290	30"	101"	Relief 1"
HW3648	265	36"	68"	Drain 1"
HW3660	315	36"	80"	In 2.5"
HW3672	365	36"	92"	Out 2.5"
HW3684	417	36"	104"	Recirc. 1.5"
HW3696	470	36"	116"	Relief 1"
HW36120	573	36"	140"	Temp. 1.25"
HW36168	785	36"	188"	
HW4272	492	42"	94"	Drain 1.5"
HW4284	564	42"	106"	In 3"
HW4296	636	42"	118"	Out 3"
HW42120	780	42"	142"	Recirc. 2"
HW42144	924	42"	166"	Temp. 1.25"
HW42168	1068	42"	190"	Relief 1.25"
HW4854	513	48"	78"	Drain 1.5"
HW4860	560	48"	84"	In 3"
HW4872	654	48"	96"	Out 3"
HW4884	748	48"	108"	Recirc. 2"
HW4896	842	48"	120"	Temp. 1.25"
HW48120	1030	48"	144"	Relief 1.25"
HW48144	1218	48"	168"	
HW48168	1406	48"	192"	
HW5460	721	54"	87"	Drain 1.5"
HW5472	840	54"	99"	In 4"
HW5484	959	54"	111"	Out 4"
HW5496	1078	54"	123"	Recirc. 2.5"
HW54120	1316	54"	147"	Temp. 1.25"
HW54144	1554	54"	171"	Relief 1.5"
HW54168	1792	54"	195"

HW90384	11510	90"	434"	

Other sizes are available upon request. The diameter must be in 6-inch increments. The length of the shell may be manufactured to whatever length is necessary to achieve the desired capacity. Please call Midwest Tank for optimum sizes. Number of openings and sizes may be located on the drawing worksheet. There is no limit on quantity or size of openings. All openings larger than 2" will be 150# flanged openings. All openings 2" and less will be 3000# threaded couplings. A standard manhole is 12 inches by 16 inches. Other manhole sizes are available. Hot water coils are optional.
